

Networking: The great potential of listings on your Twitter account

Creating lists of Twitter: testing for several weeks the lists can be created on Twitter I am absolutely surprised at their power and potential both in terms of Networking and SEO on Twitter and of course Google.

Tips for creating the lists on Twitter

- Above all remember to create a list Twitter targeting precisely defined,
- For the name of the list think that they will structure the url of your list
- The meta description should correspond to the Twitter list to be created.

Who subscribe to your newly created lists on Twitter?

It clearly evident that if your list is called "Africa" it is imperative to incorporate accounts that speak of Africa, this will increase the consistency of your listing on Google to acquire a good SEO Quick and Natural thereof.

Twitter Referencing your list of Twitter

There are countless lists on Twitter internet with various themes that can match your lists Twitter. Some tips for finding good Twitter lists based on your search keywords:

- [Twitter Lists - News and Reviews \(Mashable.com\)](#), [Listorious Service to find very good list of Twitter and also reference them to improve your networking.](#)
- You can of course "Linker" lists your Twitter "parsimony" to get a good referral.
